

Camp IDEA Elementary Schedule

Register for classes based on student grade level in September!

One Day Workshops

Join a Camp IDEA staff member for a four hour workshop with themed activities!

Grades 1-2	Camp Out!
July 6, 2022 	Instructor: Melissa Iocona Sleep out under the stars at Camp IDEA.... during the daytime! This class will explore fun science and nature activities that you might need to go on a camping trip! We will design and build tents, go on nature scavenger hunts, learn about insect and bird habitats, create a water filtration system, check out constellations and even learn how to harness solar and wind power! It's a camp out you won't want to miss!
Grades 3-4	Kitchen Chemistry
July 7, 2022 	Instructor: Melissa Iocona Take a look in your pantry -- did you know that you can do really cool science experiments with what you find there? Our young scientists at Camp IDEA will be introduced to and explore simple chemistry concepts using common materials and ingredients, such as those found in our kitchens! This class will be is sure to be amazing because it will be hands on - and you might even get a little messy!
Grades 5	May the Force Be With You
July 6, 2022 	Instructor: Michelle Tucci Attention all Rebels - if you are one with the force, bring your fan gear and trivia knowledge and head to Camp IDEA to participate in Star Wars themed critical thinking challenges, science experiments, and STEM activities. We will make a take home droid, take target practice on womp rats, debate characters and more! There will be a healthy dose of Star Wars trivia for true fans and movie clips to debate and enjoy! Will you achieve true Jedi status?

Camp IDEA Elementary Week

Register for classes based on student grade level in September!

Full Week Classes (July 11-14, 8AM - 12PM)

Your child will attend both topics in their grade level with a short recess break between sessions! Each class is sure to catch the attention of and provide an enriching experience for all students!

Grades 1-2	Mission Impossible & Adventures in STEAM
	<p data-bbox="1032 579 1479 611" style="text-align: right;">Instructors: Demi Jaep & Michelle Tullio</p> <p data-bbox="435 646 1474 1094"><u>Part A:</u> Your mission... should you choose to accept it... is to come to Camp IDEA and see if you have what it takes to make it through spy training. This class will focus on your skills in communication, teamwork, attention to detail, and mental and physical training. Participate in brain teasers, teamwork challenges, and agility training to achieve your spy status. Are you ready for minefield crossing or warrior dash? Do you have an eagle eye? Can you recreate pictures from memory? This training will test you and make you into one of the best spies the U.S. has to offer. {{This message will self destruct in five seconds.....}}</p>
	<p data-bbox="435 1129 1468 1575"><u>Part B:</u> Living “happily ever after” isn’t always easy! In Adventures in STEAM, the end of the story is just the beginning. Get ready to explore your favorite stories and fairy tales in new ways! Be a creative problem solver while devising solutions to story-based challenges, and unlock your inner scientist as you discover new wrinkles in classic tales. Students will explore classic stories and fairy tales, work through design challenges, conduct science experiments, and design awesome artwork in this week of STEAM-based activities. Put your thinking caps on because your fictional friends need your help!</p>

Camp IDEA Elementary Week

Register for classes based on student grade level in September!

Grades 3-4	Shark Week & Launched!
	<p style="text-align: right;">Instructors: Jenny Christmas & Laurie Boyle</p> <p><u>Part A:</u> Grab your SCUBA gear because Shark Week has reached Camp IDEA! This summer we will dive in and explore the World of Sharks! Each day we will become Marine Biologists and research current and extinct sharks! We will have shark trivia, games, crafts, mapping activities, and so much more as we discover the fascinating world of sharks!</p>
	<p><u>Part B:</u> If you can launch it, we have it here at Camp IDEA. Each day students will design new projects to “launch” something into the air – catapults, superballs, zipline racers - and more! We will learn the background of how things get going, and then stay in the air for as long as possible. Each day will be a new stem challenge as we blast off into the sky!</p>

Grade 5	Journey to Japan & Stop Motion Animation
	<p style="text-align: right;">Instructors: Christine Robinson & Michael Brodzik</p> <p><u>Part A:</u> Hop on a plane and take a quick Journey to the amazing country Japan. Explore the geography, history and culture of this land on the otherside of the Earth! Design unique art projects based on traditional techniques, and even practice some of the language. Come and say Konnichiwa to Mrs. Robinson as you learn about Japanese culture.</p>
	<p><u>Part B:</u> Coraline, The Nightmare Before Christmas, Wallace and Gromit - what do all of these movies have in common? They were all filmed using the Stop Motion Animation technique. In this class campers will explore the history of Stop Motion Animation and discover all of the set up that is needed in making a successful video. They will then design several stop motion videos using Stop Motion Studio app and a variety of subjects and storytelling techniques!</p> <p><i>**Campers should bring with them a device with the free Stop Motion Studio app installed**</i></p>
